

## Another Worldclass Hospital in a strategic location.

On the 1<sup>st</sup> of June, 2017, Bangkok Dusit Medical Services Public Company Limited (BDMS), the country's largest operator of private hospitals opened a greenfield 150-bed secondary care hospital with total land area of 16 rai of which 31 beds are opened during the first phase.

Conveniently located in Siam Square district in Surat Thani High way 417. Surat Thani - the city of good people,a new road which directed to Surat Thani Airport, Amphur Mueng, Surat Thani a province in the lower southern Gulf of Thailand, it is the largest city of the southern Thailand and also the sixth largest province of Thailand.

As the largest operator of private hospitals in the country, Bangkok Dusit medical Services Public Company Limited (BDMS) has always endeavored to reach as many areas in the country as possible in terms of providing an advanced level of healthcare and expert medical services to as many people as possible, which has been the guiding light for the entire BDMS network.

Over the years, Bangkok Hospital Group, the country's largest operator of private hospitals has been true to its mission of establishing world-class hospitals in strategic locations across the country. Today, Bangkok Hospital Surat becomes an important part of such noble mission, as it opens its doors to welcome patients from the province and nearby localities.

For many years in the past, many people and patients in Surat Thani would travel long distances to Bangkok, whenever they get sick or to receive high-standard medical attention and medical treatments. Now, with the opening of Bangkok Hospital Surat, this is no longer the case.

For patients, the attractively furnished patient rooms will ensure patients total comfort, safety and privacy during their stay, while the same level of comfort and convenience is also accord to patients' friends and relatives who are visiting.

The doctors, nurses and supporting staff and other medical professionals who are working with Bangkok Hospital Surat all have a glowing reputation for their skills and professionalism and dedication. Its doctors are highly qualified and committed to patient focused approach that has been the hallmark tradition of Bangkok Hospital brand for many years.

Bangkok Hospital Surat, as an all-in-one hospital currently has the following medical service departments to complete its offering:

- General medicine
- General surgery
- Obstetrics & gynecology
- Pediatrics
- Ear- Nose- Throat
- Ophthalmology
- Physical Therapy
